

The Right Workstation Makes All The Difference

SOLIDWORKS Performance Wherever Work Takes You

Lenovo

Get the most out of SOLIDWORKS® with the right workstation

SOLIDWORKS Design-to-Manufacturing Solutions provide everything you need to bring your ideas to market. From design to final assembly—you need an efficient, high-performing workstation that meets your every demand, without fail.

SOLIDWORKS solutions cover all aspects of your product development process with a seamless, integrated workflow. Covering design and verification, onto visualization and simulation, through to analysis, communication and data management.

Lenovo Workstations are certified for success

Every power-packed Lenovo Workstation, from high-performing towers to mobile workstations, is ISV-tested and certified with SOLIDWORKS. In the manufacturing and engineering industries, professionals rely on Lenovo's reliable ThinkStation and ThinkPad workstation solutions with Intel® Core™ and Xeon® processors and NVIDIA RTX™ graphics to ensure maximum efficiency, productivity, and ROI.

SOLIDWORKS certification gives you the edge

Quick processing, response, and loading of assemblies

Fast graphics and exceptional user experience

Superior and reliable hardware support

SOLIDWORKS features remain enabled and updated
